

Hazem Krimi

SOFTWARE ENGINEER

Hammamet, Tunisia

✉ me@hazemkrimi.tech | 🏠 hazemkrimi.tech | 📧 hazemkrimi | 💻 hazemkrimi | 🐦 hazemkrimi

Summary

Software Engineer with an extensive experience building web and cross-platform mobile applications with focus on optimal performance and delightful user experience using various technologies including JavaScript, TypeScript, Python, C/C++, Go, and Kotlin.

Experience

Crimson Quirks

Co-FOUNDER

Hammamet, Tunisia

Jan. 2023 - Present

Providing software development and general IT services for individuals and businesses of all sizes.

ProveAI

SOFTWARE ENGINEER

Remote

Jul. 2025 - Apr. 2026

Member of a team of full-stack engineers working on an AI management platform that helps organizations centralize and manage their AI models while maintaining strict oversight of data access and usage. Built on distributed ledger technology, the platform provides tamper-proof oversight, ensuring organizations can set and enforce guardrails to mitigate risk and optimize AI performance.

Finteam

SOFTWARE ENGINEER

Remote

Feb. 2023 - Apr. 2025

Was part of a team creating a global financial market for intraday liquidity, enabling interbank lending for hours at a time. Using technologies such as React and TypeScript, as well as learning new ones like Kotlin and Scala, I build scalable solutions that meet the unique needs of our clients in the banking industry. My work, which includes utilizing Microsoft Azure, helps financial institutions better manage their liquidity and improve their bottom line.

Cielo Costa

SOFTWARE ENGINEER

Remote

Mar. 2022 - Feb. 2023

Developed and maintained a SaaS application for health and safety auditing, utilizing full-stack development skills and technologies including React.js, Node.js, MongoDB, and Microsoft Azure. Contributed to the development of a user-friendly interface and ensured that the application was secure and scalable, meeting the unique needs of clients in the health and safety industry.

EMIKETIC Web Technologies

SOFTWARE ENGINEER

Hammamet, Tunisia

Aug. 2021 - Mar. 2022

Collaborated with clients to develop customized web and mobile applications, gaining valuable experience in full-stack development, including front-end and back-end programming, database integration, and API utilization.

Astrolab Agency

SOFTWARE ENGINEER

Sousse, Tunisia

Feb. 2021 - Aug. 2021

Developed the front-end for a user-friendly software application builder designed for non-technical users, utilizing React.js, Apollo GraphQL, and TypeScript. Also contributed to the development of DigiShop, a SaaS platform that empowers users to create and manage their online stores with ease.

Freelance

SOFTWARE ENGINEER

Remote

Feb. 2020 - Feb. 2021

Provided consulting services to students and small businesses seeking guidance on software engineering or development of projects.

Cube IT Corp

SOFTWARE ENGINEER

Nabeul, Tunisia

Jan. 2020 - Feb. 2020

Developed a sports mobile application using React Native, including a custom news feed and ticketing store for sporting events. Collaborated with the team to deliver a high-quality product on time, gaining valuable experience in mobile app development and API integration.

Tunisie Telecom

INTERN

Hammamet, Tunisia

Jan. 2019 - Feb. 2019

Learned network distribution and management in the city of Hammamet. Gained valuable hands-on experience and knowledge from industry professionals, instrumental to career development.

Skills

DevOps	Linux, Docker, Kubernetes, GitHub Actions
Back-end	Echo, Ktor, Express, FastAPI
Front-end	Hugo, React (Native), HTML, CSS
Programming	JS/TS, Python, C/C++, Go, Kotlin
Languages	Arabic, English, French

Education

ISET Nabeul

BACHELOR'S DEGREE IN INFORMATION TECHNOLOGY

Nabeul, Tunisia

Sep. 2018 - Jul. 2021

Atef Chaieb Hammamet

HIGH SCHOOL DEGREE IN COMPUTER SCIENCE

Hammamet, Tunisia

Sep. 2014 - Jul. 2018

Certifications

Developing Secure Software - LFD121

LINUX FOUNDATION

Practices for properly developing software to be as secure as possible against various types of attacks.
