Software Engineer with an extensive experience building AI-powered and user-friendly web and cross-platform mobile applications using various technologies including React, React Native, TypeScript, Golang, Rust, Kotlin and Scala to name a few.

Experience

- ProveAI
Software Engineer
Jul 2025 - Present
Part of a team of full-stack engineers working on an AI observability platform that helps organizations centralize and manage their AI models while maintaining strict oversight of data access and usage. Built on distributed ledger technology, the platform provides tamper-proof oversight, ensuring organizations can set and enforce guardrails to mitigate risk and optimize AI performance.

- Finteum
Software Engineer
Feb 2023 - Jul 2025
I was part of a team creating a global financial market for intraday liquidity, enabling interbank lending for hours at a time. Using technologies such as React and TypeScript, as well as learning new ones like Kotlin, Scala, Corda and Microsoft Azure, I build scalable solutions that meet the unique needs of our clients in the banking industry.

- Cielo Costa
Software Engineer
Mar 2022 - Feb 2023
Developed and maintained a SaaS application for health and safety auditing, utilizing full-stack development skills and technologies including React.js, Node.js, MongoDB, and Microsoft Azure. Contributed to the development of a user-friendly interface and ensured that the application was secure and scalable, meeting the unique needs of clients in the health and safety industry.
<https://cielocosta.com>
- EMIKETIC Web Technologies
Software Engineer
Aug 2021 - Mar 2022
Collaborated with clients to develop customized web and mobile applications, gaining valuable experience in full-stack development, including front-end and back-end programming, database integration, and API utilization.
<https://emiketic.com>
- Astrolab Agency
Software Engineer
Feb 2021 - Aug 2021
Developed the front-end for a user-friendly software application builder designed for non-technical users, utilizing React.js, Apollo GraphQL, and TypeScript. Also contributed to the development of DigiShop, a SaaS platform that empowers users to create and manage their online stores with ease.
<https://astrolab-agency.com>
- Freelance
Software Engineer
Feb 2020 - Feb 2021
Skilled in developing web and mobile projects, with a talent for collaborating with clients to deliver customized solutions. Also provided consulting services to students seeking guidance on coding and development best practices.
- CUBE IT Corp
Software Engineer
Jan 2020 - Feb 2020
Developed a sports mobile application using React Native, including a custom news feed and ticketing store for sporting events. Collaborated with the team to deliver a high-quality product on time, gaining valuable experience in mobile app development and API integration.
<https://cubeit-corp.com>
- Tunisie Télécom
Intern
Jan 2019 - Feb 2019
Learned network distribution and management in the city of Hammamet. Gained valuable hands-on experience and knowledge from industry professionals, instrumental to career development.
